TASK ANNOUNCEMENT: WEB DEVELOPERS ROUND 1

Overview

Thank you for your interest in joining Evolve as a Web Developer. Your initial application showed strong interest and potential. We are now moving into the practical evaluation phase. This round is designed to assess your frontend development skills, design thinking, and problem-solving ability through real-world implementation tasks.

The Task : Candidates must choose and complete one of the following tasks.

Task Option 1: Landing page for Vidyut'25

Candidates are required to design and develop an official landing page for Vidyut'25, an event organized by Evolve.

Layout and Structure :

- The page must be fully responsive and functional across mobile and desktop devices.
- The page must include the following sections:
 - Navigation Bar
 - Hero Section
 - About / Event Overview Section
 - Events or Highlights Section
 - Footer Section

Functionality:

- Smooth scrolling navigation between sections.
- Responsive hamburger menu for smaller screens.
- At least one interactive component such as :
 - Modal popup
 - FAQ accordion
 - Image Slider or carousel
 - Scroll based animation

Design Expectations:

- Consistent typography and spacing.
- Visual elements that reflect a technical or innovation-focused event identity.
- Clear and intuitive navigation.

Task Option 2 : Productivity Manager Web Application

Candidates are required to develop a browser-based productivity management application that allows users to create, manage, and track tasks efficiently.

Requirements :

- Task Management :
 - Users must be able to add new tasks.
 - Users must be able to edit existing tasks.
 - Users must be able to delete tasks.
 - Users must be able to mark tasks as completed or pending.
- Categorization or Tagging :
 - Each task must include a category or tag.
 - Users must be able to filter task based on category or tag.
- Data Persistence :
 - All data must be stored using browser local storage.
 - Data must persist after page refresh or reopening the application.
- Dashboard should contain :
 - Total number of tasks.
 - Number of completed tasks.
 - Number of pending tasks.
- Form Handling and User Experience :
 - Proper input validation must be implemented.
 - The application must handle empty states appropriately.
 - The interface must be fully responsive across devices.
- Optional Enhancements :
 - Drag and drop task ordering.
 - Search functionality.
 - Task priority levels.
 - Due date tracking.
 - Theme toggle.

Submission Instructions :

Please organize your submission into a GitHub repository named :
[Your Name]_Evolve_WebDev_Round1

The repository must include :

1. Complete source code.
2. README file containing :
 - Project description
 - Feature list
 - Tech stack used
 - Challenges faced during development
3. Live deployment link (you can use vercel/github pages or any other platform for deployment)

Rules :

- The submitted project must be original work.
- Direct copying from the templates or tutorials is not permitted.
- Submissions that do not follow the instructions may not be evaluated.

Evaluation Criteria :

Submission will be evaluated based on the following parameters :

- Code Quality and Organization.
- Feature Implementation and Functionality.
- User Interface and Responsiveness.
- Creativity and Additional Enhancements.

Deadline:

Submit your GitHub repository link and deployed version link through official submission form before : 12th February 2026.

Form Link : <https://forms.gle/fZahzXTJMD09Y3Cz8>

POC for Queries :

Aadi Jain - +91 8989441154

Yatharth Upmanyu - +91 9522202434

Regards,
Web Development Team
